

CALIFORNIA WATER SERVICE

Rancho Dominguez District 2632 West 237th Street, Torrance, CA 90505
Tel: (310) 257-1400

April 3, 2019

Dear Customer:

California Water Service (Cal Water) is pleased to inform you of an upcoming water infrastructure upgrade that will improve water supply reliability and fire protection in your area. On April 17, 2019, we will begin a project to install about 5,400 feet of new 12-inch water main, weather permitting, on Inglewood Avenue, from 190th Street North to Artesia Boulevard.

The majority of the work will be performed Monday through Friday between 9 a.m. and 6 p.m. We will make every effort to minimize traffic delays during construction, including performing some of the construction in major intersections at night.

Construction is estimated to take approximately eight weeks, after which we must flush the water lines and take water quality samples. Please be assured that we are committed to conservation and will flush only as long as necessary to fulfill water quality requirements.

After test results are returned approximately two weeks later, we will tie individual water service connections to the new main. When completed, all streets, sod, and landscaping impacted by the construction will be restored as close to the previous condition as possible.

Please be aware that temporary asphalt will be applied until permanent paving is completed approximately 30 days after project completion. This time delay is necessary to allow the trench to become fully compacted, so the road surface is smooth after permanent paving is completed.

We will need to temporarily interrupt water service for one to two days when we tie customer services to the new water main and put the main into service; however, we will notify you prior to any planned shutdown. Shutdowns are normally scheduled between 8 a.m. and 5 p.m.

We will work hard to minimize any temporary inconvenience to you as we make water system improvements that will benefit our community for years to come. If you have any questions, please contact me at (310) 257-1400.

Sincerely,

Rob Olsen
Superintendent
